

## LEED v4 BD+C: New Construction

### Storage and Collection of Recyclables

Describe the dedicated recycling storage areas for the project. Include the size of the areas, accessibility, and expected volume for the project. Demonstrate that the recycling storage areas are appropriately sized and located. Demonstrate that safe storage and collection has been provided for batteries, mercury-containing lamps, and/or e-waste.

☐ The recycling storage areas are sized for the following material types:

- Mixed paper
- Corrugated cardboard
- Glass
- Plastics
- Metals

**Select two or more. The recycling storage areas additionally accommodate the following material types:**

- ☐ Batteries
- ☐ Mercury-containing lamps
- ☐ E-waste

Upload a floor plan(s) highlighting the recycling storage areas in the project.

#### Special Circumstances

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits. (Optional)

Upload any additional documentation that supports the claim to special circumstances. (Optional)
