KELLEY DUGOSH**Mechanical Engineer/Commissioning Specialist**

Kelley is a mechanical engineer with more than six years of professional and academic experience. He has been a key member in commissioning mechanical, electrical and plumbing systems for clients including the University of Texas, Austin Community College, and the City of Austin. Kelley has commissioned, tested and provided troubleshooting for systems including HVAC, air handlers, terminal units, building automation/control systems, variable frequency drives, domestic hot water systems, heating hot water systems and chilled water systems. His experience includes design review, script writing, systems manual development, client and team member coordination and final performance testing.
