

## LEED v4.1 BD+C: New Construction

# Building Product Disclosure and Optimization - Sourcing of Raw Materials

Upload the completed BPDO Calculator (found under the credit's "Resources" tab in the Credit Library) or equivalent documentation. Include all of the products contributing toward credit compliance.

### Responsible Sourcing of Raw Materials

Provide the following value from the Summary tab of the Building Materials Calculator:

Sustainable criteria value as a percentage of total materials cost (%)

20.5

Note: Sustainable criteria value must be at least 15% for 1 point, 30% for 2 points, and 45% for exemplary performance.

Upload compliant manufacturer documentation or third party claim documentation demonstrating that products meet at least one of the sustainable extraction criteria listed in the credit requirements. If pursuing the regional multiplier criteria for some products, provide documentation that the product source location (extraction, manufacture, and purchase) is within 100 miles (160 km) of the project site.

### For projects that include re-use

Describe the re-use strategies (include salvaged, refurbished, etc.)

### For projects that include products from a USGBC-approved program

☐ Documentation has been provided for all products complying under a USGBC-approved program.

### Special Circumstances

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits. (Optional)

Upload any additional documentation that supports the claim to special circumstances. (Optional)
