

LEED v4 BD+C: New Construction

Water Metering

Select two or more. The following water subsystems are metered:

- ☐ **Irrigation** (at least 80% of landscaped area)
- ☐ **Indoor plumbing fixtures and fittings** (at least 80% of fixtures and fittings)
- ☐ **Domestic hot water** (at least 80% of the installed domestic hot water heating capacity including both tanks and ondemand heaters)
- ☐ **Boiler** with aggregate projected annual water use of 100,000 gal (378,500 l) or more, or boiler of more than 500,000 BtuH (150 kW)
- ☐ **Reclaimed water**
- ☐ **Other process water** (at least 80% of expected daily water consumption for process end uses such as humidifiers, dishwashers, clothes washers, and pools)

Describe the submeters. Include a list of submeters, their locations, and the percentage of each subsystem metered (as applicable).

Special Circumstances

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits. (Optional)

Upload any additional documentation that supports the claim to special circumstances. (Optional)
