

LEED v4 BD+C: New Construction

Building-Level Energy Metering

- The project has permanently-installed, building-level energy meters that account for all sources of energy delivered to the building by an external provider, as listed in EA Prerequisite Minimum Energy Performance.

Upload a letter from the project owner committing to share energy usage data, compiled into monthly and annual summaries, with USGBC for a five-year period beginning on the date of LEED certification or when the project reaches typical occupancy, whichever comes first.

Note: The same letter may be used for WEp Building-Level Water Metering.

Select one of the following:

- USGBC-approved data template.** The project owner commits to providing energy consumption data to USGBC and acknowledges that USGBC will only accept the data using the [USGBC-Approved Data Template](#).
- Third-party data source.** The project owner commits to providing energy consumption data to USGBC and acknowledges that USGBC will only accept the data in an approved third-party source or format.

Special Circumstances

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits. (Optional)

Upload any additional documentation that supports the claim to special circumstances. (Optional)
